## Bold Bluffs

**Bio:** The Bold Bluffs are a rock and roll band based out of Kalamazoo, MI. We are currently trying to book shows for the 2025 season. We specialize in playing covers of your favorite classic rock tunes and we do have original music as well. All the members of Bold Bluffs have played in previous bands including Teeming Dreams & Gold Coast (with Rozlyn Heart). Other venues we have performed at are included below. We are open to putting on the best show for your venue and that includes playing as a full band, unplugging to play acoustic gigs, straight cover songs, all originals or a combination of both. We are currently in the process of recording originals for our first album but rough mixes are available on our SoundCloud to get an idea of what our original music sounds like. We hope to be able to perform for you in the future!

### Set Lists & Cover Tunes

The only thing better than heading to a local park or watering hole and catching some good live music is getting to play that music live in our opinion! While we love playing original tunes for people, we know people love hearing the classics. Below is a sample of songs from our set list from a recent show we played at Ironbark Brewery in Jackson, MI. If you like the vibes of the songs below, we think we would be a great fit for your venue. If you have any special requests, please let us know. We love learning new songs!

Crossroads – Cream, Long Cool Woman – The Hollies, Stand By Me – Ben E. King, Come Together – The Beatles, Cinnamon Girl – Neil Young, Needle & The Spoon – Lynyrd Skynyrd, Hey Joe – Jimi Hendrix, Jean Genie – David Bowie, Brickhouse – The Commodores, Night Moves – Bob Seger, and many other classics.
